Commissioner for Patents

Applicant's amendment to the claims, filed on 5/26/09, is acknowledged. Claims 1-40, 42-44, and 46-62 are pending in the claim listing. The amendment cancels all claims drawn to the elected invention (claims 41 and 45). Claims 1-40, 42-44, and 46-54 are withdrawn from consideration and newly submitted claims 55-62 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The claims of the elected invention and newly added claims 55-62 are distinct because the method of the elected invention contacts a *ligase polypeptide with a compound that decreases interaction between the ligase and substrate* whereas the method of new claims 55-62 contacts a *nucleic acid encoding a ligase with an antisense or RNAi*. In other words, the methods use distinct products and thus the methods have a materially different design. Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants. Also, it is noted that the claims of the elected invention and newly added claims 55-62 require a separate search because of the distinct limitations.

The amendment filed on 5/26/09 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the method of newly added claims 55-62 is not encompassed by the method of now canceled claims 41 and 45.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
